

CBF CAR BODY FORKS

TOUGHER THAN A JUNK YARD DOG

CBF Car Body Forks were designed specifically for auto salvage yards. Tapered tines with beveled tips insure easy separation from the load. The fixed, high strength, heat-treated alloy steel tines are matched to the capacity of your loader for maximum productivity.

BUILT FOR YOUR APPLICATION

Rockland CBF Car Body Forks are available with a wide variety of options that insure your new car body fork will deliver maximum results in your application. All Rockland Car Body Forks are available with the following options:

- Optional backframe height – for loading and unloading large stacks of cars or increased visibility
- Rubber bumpers – for effectively handling parts cars while avoiding dents and damage
- Tapered tines in either direction – for preventing truck bed damage or loading cars from ground level
- Tine lengths – to suit your application's needs (see reverse for more information)

Optional backframe height

Optional rubber bumpers

Tine tapered on the top or bottom

Tine lengths to suit your application

BUILT TO LAST

Rockland CBF Car Body Forks are tough and they won't take a bite out of your pocketbook or the maintenance budget. The entire unit is built of tough, weight-saving, alloy steels that deliver years of dependable service. The solid frame also does double duty as a dozer to keep yards level, fill low spots, or keep scrap out of the way. If you handle crushed cars with a loader, specify Rockland CBF Car Body Forks.

Car Body Forks With Longer Tines
