

# BRUSH HANDLING GRAPPLE

REMOVE DEBRIS WHILE LEAVING VALUABLE SOIL BEHIND.

Introducing Rockland's Brush Handling Grapple, the ultimate solution for storm cleanup, site preparation, and recycling applications. Forget unnecessary dumping and transportation costs, as this grapple allows you to selectively remove what you need while leaving the soil undisturbed in its place. Efficiently sift through debris with optimally spaced tines, ensuring that no valuable materials are overlooked. Need a more tailored approach? Custom tine spacing and clamp configurations are available to meet your unique requirements.
