

HIGH CAPACITY MILLYARD GRAPPLES

UNLOAD TRUCKS IN A SINGLE PASS

Unload trucks in a single pass with the Rockland High Capacity Millyard Grapple. Box frame construction and weight saving alloy steel keep grapple weight low so you can move more wood. T1 steel throughout, plus AR400 in all wear areas ensure long grapple life. Powerful dual cylinders deliver high clamping force while rounded clamp tips minimize log damage. Consider these features and you'll see that's why Rockland grapples outlast and outperform the competition.

West Coast Design Individual Clamps Landing On Tines. Wide Width, Shorter, Rounder Frame.

East Coast Design Linked Clamp Between Tines. Narrow Width, Taller Frame.

HIGH CAPACITY MILLYARD GRAPPLES

UNLOAD TRUCKS IN A SINGLE PASS

West Coast Design

East Coast Design

Both designs available with optional pin-on, replaceable tine tips and center cutting edge.
